Home From Home Care

Created by parents to make the difference; Home From Home Care provides specialist residential care to adults (18+) with learning disabilities and complex needs, including autism, epilepsy, complex health needs, behaviours that challenge, sensory needs, mobility needs and PMLD and associated mental health needs.

"Inspired by Laura, our daughter and Hugo's sister, we created Home From Home Care. Combining our family perspective with experienced professionals, we create dynamic and therapeutic services around each person in exceptional environments. We offer a full and active life to meet personal aspirations, delivering meaningful outcomes and fulfilled days." - Paul, Ann and Hugo de Savary.

We currently have 11 separately registered services across 5 locations in Lincolnshire. We support individuals with complex needs who are funded by over 50 commissioning authorities nationwide.

Referral and availability notes

All placements and availability at Home From Home Care are dependent on our own in-depth assessment. This enables us to determine whether we would be able to support the individual's needs and offer a suitable placement, which takes into account compatibility with other individuals and also suitability of environments etc.

We place heavy emphasis on ensuring individuals who share an environment are compatible with each other, which is not necessarily based on their diagnosis. We explore characteristics and match individuals in this way - we have learnt through experience that in doing this, individuals thrive and develop their potential to a much higher degree. We completely design environments and support specific to individual requirements to create a bespoke package for them.

All referrals for assessment must come from the funding authority.
